

# Estonian Hydrogen Cluster – a public-private partnership

## Setting up the Estonian Hydrogen Economy

- Joint vision, hand-in-hand with public sector, private sector and scientists -  
**National strategy**
- Establishing **green hydrogen islands** – regional complex solutions, also on the European level

- Open dialogue and information exchange in composing the strategy and measures
  - Private sector
  - Regional view
  - R&D role
  - Trainings and learning
  - Involving society
  - Joint financing

Call to action! - mapping of the Estonian green hydrogen value chain
